

CELEBRATES EARTH DAY

Assurant, along with our clients, helps support social and environmental initiatives through our mobile Trade-in and Upgrade programs.

28,000 metric tons of e-waste diverted from landfills

139M devices repurposed

\$15.5B in the hands of consumers

7M metric tons of CO2 emissions avoidance

Provided improved connectivity for **10s of Millions** of people

Since 2009*

An estimated **59.4 million metric tons** of e-waste was generated globally in 2022.

This is equivalent to 3,700 cars being dumped into landfills every hour of every day for a year.

In 2022, Assurant redirected **1.7 million devices** to be repaired or recycled.

For **every 1 million smartphones** recycled, the following can be recovered:

15,000 kg of copper
350 kg of silver
34 kg of gold
15 kg of palladium

Recovered

The recycling of smartphones prevents contamination of our soil, water, and air from toxic chemicals such as mercury, lead, and arsenic.
