

# New year. New deductible. Time for Rx savings.

## Have you checked Rx Savings Solutions (RxSS)?

A high-deductible health plan can cost you **less each month**, but you might pay more for prescriptions before your insurance starts to kick in.

That's why you have access to a free service called RxSS that can help you find lower-cost options for your medications.

### Pro-Tip: Use an HSA

Put money aside in a **tax-free Health Savings Account (HSA)** to help pay off your deductible.

**Use RxSS to get a jump-start on saving this year.**

Visit [myrxss.com](https://myrxss.com) today.

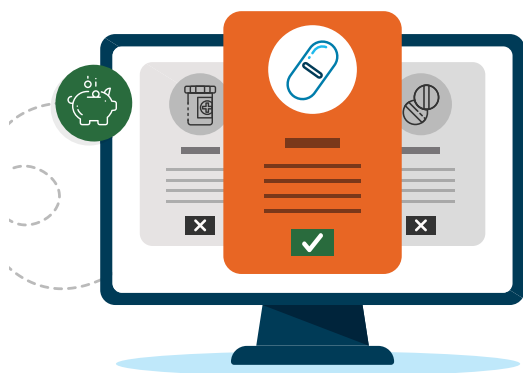

Scan the QR code to download the RxSS mobile app and activate your account.

# Your account is ready to go.

Visit **myrxss.com** to activate it today and start saving.

## How it Works

- 1** RxSS pharmacists find **equally effective, affordable medications** covered by your insurance.
- 2** Your online account shows any **lower-cost prescriptions** available and lets you compare prices.
- 3** Switch to a more affordable option **with ease**. We'll get your doctor's approval and work with your pharmacy to get it done for you.
- 4** We'll **contact you** anytime you can save on prescriptions.

## Real People. Real Savings.

**"They took service to a whole new level by calling my doctor and the pharmacy and facilitating a prescription change to save me money."**
